Installatiehandleiding

IBM SPSS Statistics 26 Mac

To start the installation of SPSS26, you first have to download the installation file on your Mac. You can do this by clicking on the download link in your order overview (besteloverzicht) from your SURFspot account. You can also find your download link in the order confirmation we've sent you via e-mail.

Step 1: Click on your SPSS download link and wait until the file is downloaded. As soon as it is downloaded, you can find the installation file via Finder. If you click on the installation file, it will start.
